

Website Project Requirement Document

1. Project Overview

Create a highly interactive, modern 3D website for a Multifaith organization. The core message is unity of all religions through divine love (God's Love). The site will connect multiple existing websites, books, and Sufi courses into one organized platform.

2. Goals

- 1 Present a strong visual message of unity across religions
- 2 Create immersive 3D and interactive experience
- 3 Organize existing websites, books, and courses
- 4 Provide smooth navigation and responsive design
- 5 Drive users to external platforms and social channels

3. Required Assets (Client Must Provide)

- 1 Logo (high quality, PNG/SVG)
- 2 Brand colors and fonts (if available)
- 3 Content text (about, mission, descriptions)
- 4 Books details (title, cover, description, links)
- 5 Course details (name, description, links)
- 6 Existing website links
- 7 Personality profiles (name, image, description, link)
- 8 Social media links (YouTube, Instagram, etc.)

4. Website Structure

- 1 Home (3D hero section with main message)
- 2 About / Mission
- 3 Religions Unity Section
- 4 Books Library
- 5 Courses Section
- 6 Personalities / Leaders
- 7 Linked Websites Hub
- 8 Contact / Social Media

5. 3D & Animation Ideas

- 1 Intro animation: Religious symbols merging into one
- 2 Beating human heart with different names of God in multiple languages
- 3 Floating interactive 3D elements
- 4 Scroll-based animations
- 5 Hover animations for sections
- 6 Smooth transitions between sections

6. Linking Strategy

- 1 Each personality will have a short intro + external link
- 2 Books and courses will redirect to their platforms
- 3 Central hub page to access all websites
- 4 Clear CTA buttons for navigation

7. Hosting & Technical Requirements

- 1 Fast hosting with SSL
- 2 Domain name
- 3 WordPress or custom build (to be decided)
- 4 CDN for speed
- 5 Mobile responsive design
- 6 SEO basic setup

8. Content Guidelines

- 1 Simple, clear, emotional messaging
- 2 Focus on unity and divine love
- 3 Avoid complex wording
- 4 Use short sections with visuals

9. Social Media Integration

- 1 Clickable icons linking to channels
- 2 Visible placement (header/footer/sections)
- 3 Possibility of embedding feeds

10. Competitor / Reference Links

Client should provide example websites for design inspiration.

11. Final Notes

All content must be provided before development starts. Any missing items may delay the project.
